

# **Final project progress report**

Zhiyu Liu

# Tasks

1. Implement a skybox
2. Implement a Environment mapping technique
3. Implement a shadow mapping technique
4. Implement a bump mapping technique
5. Use particle system to simulate the effect of rain

# normal mapping (bump)

# Shadow Mapping

# Cubic Environment Mapping (Reflections)

- Greene, N. (1986). [Environment mapping and other applications of world projections](#). IEEE Computer Graphics and Applications, 6(11), 21-29. ([ncsu](#))

DEMO

# Check List

- ~~1. Implement a skybox~~
- ~~2. Implement a Environment mapping technique~~
- ~~3. Implement a shadow mapping technique~~
- ~~4. Implement a bump mapping technique~~
5. Use particle system to simulate the effect of rain
